

# IN FASHION MT90 ORCA PRO IN RETAIL

## Supporting Logistics in Retail

The MT90 Orca Pro supports business growth in German retail logistics center.

The retail brand Engbers, founded 75 years ago as a small family business, now operates over 300 stores and two online stores in Germany and Austria where customers can shop at their convenience. To support the significant business growth and increase in activity, Engbers opened its own logistics center.

Engbers was looking for a scalable solution to streamline its logistics operations, which included tasks such as picking, shipping preparation and inventory management. With an existing partnership with AISCI Ident, a leading IT and Auto-ID partner, the company sought advice on a comprehensive solution - including Newland EMEA's MT90 Orca Pro and Ndevor, the complementary MDM software.
