

# ORDER THAT BIRDIE WITH THE FM430

## FM430 Barracuda Excels in Fast Food Self-Service Kiosks

Digital developments have not missed the food industry. As customer demand continues to rise across multiple ordering channels—including in-store, online, and delivery—fast food chains are striving to optimize operations without overburdening their staff.

The FM430 Barracuda scanner, combined with industry-leading kiosk hardware, ensures a seamless, scalable, and future-proof solution for restaurant chains aiming to enhance their order intake process and grow their business.
