

CHECK-IN WITH THE URCHIN

Effortless Event Check-Ins in the Nordics with ContactMate Events and the FR27 Urchin

Family business ContactMate Events has successfully streamlined the way attendees check in at business events for event and congress organizers in the Nordics.

ContactMate Events offers a seamless and eco-friendly self-registration and badge collection hardware solution. In addition to using energy-efficient hardware, they also use eco-friendly materials for the badges and lanyards made from recycled PET bottles. This ensures that the often-dreaded check-in process becomes a smooth and efficient experience for all.

Whether it's a business conference or a networking event, ContactMate Events focuses on minimizing waiting lines, reducing congestion, and helping attendees get to the heart of the event on time.
